

MIRKA

Carat Flex

Carat Flex is a stearate coated abrasive product for dry sanding applications.

Carat Flex has been developed especially for hand sanding of wood, sealers, paint and lacquers. The backing consists of a flexible, impregnated latex paper, which is ideal for profile sanding. The grain adherence is also extremely good.

Carat Flex has a fine stock removal and the silicon carbide provides a uniform scratch pattern. The resin bonding and the stearate coating guarantee a long life.

TECHNICAL SPECIFICATIONS

Grain	Silicon carbide
Bonding	Resin over resin
Backing	P 80 – P 120 B-Paper, P 150 – P 600 A-Paper
Coating	Semi-open
Colour	Grey
Grit range	P 80 – 600
Special coating	Stearate

ABOUT MIRKA

Mirka world-class products are manufactured in ultramodern production facilities by a professional workforce.

Over the past twenty years Mirka has grown into one of the world's largest producers of coated abrasives for the Automotive Refinishing Trade.

At the same time it has seen a dramatic rise in the sale of abrasives for the industrial surface finishing of wood, metal, and composite components.

Today we have a wide product range for individual operations and complete sanding systems for specialised applications. In addition to this, our product range includes various sanding accessories.

Our company philosophy can be described as striving for continuous improvements, systematic investments in quality, cost awareness, careful planning, the ability to take action and openness to unique solutions.

Our operations are certified to the ISO 9001 quality system and the ISO 14001 environmental management system. Mirka is also one of the first companies in Finland to have the Occupational health and safety management system certificate, OHSAS 18001.
